Buy in the Beautiful Gray Tract

One of the best subdivisions in San Mateo County. No adobe; the finest of soil—loam and gravel; beautiful oak trees, and situated on the Woodside road. This road is soon to be made into a beautiful boulevard. NOW is the time to buy. Only a few blocks from the new electric line. Don't let all outsiders come here and buy up the best. These lots are all 50x109 feet; no 25-feet frontage here. I want you to call at the office and I will show you what these lots are, and I would like to see our own people get in on the ground floor—not all strangers. About forty of these lots have been placed on the market for $250 each; 10 per cent cash, remaining payments to suit purchaser.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.
In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

CITY COUNCIL IN SESSION

Hose Cart to Be Housed On "Island"

WAIL FROM ROOSEVELT AVE.

Residents on That Thoroughfare Would Hold Up Arnold Hess' Claim

The city council, citizens and the officers of the fire department had a good heart-to-heart talk at the council meeting Monday evening, and it is believed that some public good will result from the discussion. It was the annual meeting at which the board and the department delegates jointly elect the chief and his assistants. Chief Lowe presented his report giving a list of the fires that had occured during the year. In conclusion he recommended the purchase of some needed apparatus, including 400 feet of new hose for the equipment of a cart to be placed on the "Island".

Street Superintendent Dickey was questioned regarding the cost of hose and stated that a suitable quality could be purchased for one dollar per foot. It was moved by Walker and carried that the quality recommended by Mr. Lowe be purchased.

A discussion then ensued in which the board members and the department representatives joined relative to some action toward improving the capacity of the city's firefighting facilities. Mr. Hynding suggested that frequent drills be held by which the different companies would become more proficient and better acquainted with the condition of the apparatus and the hydrants. He believed that some encouragement should be offered by the citizens in the way of money prizes or trophies for the companies that showed the greatest interest. As a property owner he was always willing to contribute and believed that most of the businessmen and taxpayers would do the same.

Arnold Hess gave an interesting description of the way that the firefighters in the rural towns of the old country are rewarded for their efforts in the public's behalf, as seen by him during his recent visit to his native town in Switzerland The fire department there is quite similar to that in this city and is made up of volunteers. They drill frequently, entering into the work with spirit, and twice each month the city offers a prize of money equal to ten dollars to the company that shows the greatest competency. The prize is valiantly fought for by the competing teams and the winners consider that they have won a great honor.

Mr. Hess believed that a similar plan might be adopted here and a much larger sum offered for such contests. He, also, was willing to help out with a monthly contribution and had no doubt that the majority of business men would approve of the plan and encourage it.

Other citizens spoke encouragingly on the subject and the discussion closed with an evidence of good will and increasing interest by all in the affairs of the fire department.

The election then took place and resulted in the selection of A. L. Lowe as chief and James P. Coleman and R. C. Holmquist as first and second assistants.

Under the head of regular business a communication was received from Wm. C. Havey informing the board that he had purchased the Pebble saloon from R. R. Flemming and asked permission to remove the business from the Wooll building on A street to the building of C. Peterson at the corner of Phelps and Main streets.

The permit requested was granted without dissent.

R. C. Holmquist was granted permission to increase the width of the cement sidewalk in front of his property on Stambaugh street by filling up the open space between the present walk and the fence line. He was also authorized to construct a cement walk 100 feet along his frontage on Walnut street.

Mr. Holmquist sent a communication calling attention to the damage done by stock that is allowed to run at large about town and suggested the appointment of a pound master. No action was taken.

A number of residents on Roosevelt avenue sent a protest against the payment of any claim that A. Hess might present for the recently completed 2000 feet of that avenue on the ground that the work was not as specified. As Mr. Hess had not presented his claim no action was taken.

Street Superintendent Dickey reported that he had installed the new six-inch water meter at the water works by which a more exact measurement of the water consumption could be had. He would within a few days make the other necessary changes so that the water will be pumped directly to the tanks instead of into the mains as is now the plan.

WOMEN'S WOES.

Redwood City Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflite humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. H. C. Wilder, living at 806 Arguello st, Redwood City, Cal., says: "Before I used Doan's Kidney Pills, I was annoyed to quite an extent from a dragging pain in my back which clung to me persistantly and made my life miserable. My grandmother was staying with us at the time, and as she had used Doan's Kidney Pills with satisfactory results, she advised me to give them a trial. I procured a box at P. A. Ryyn's Drug Store, and they absolutely banished the pain and distress in my back and I have not had the slightest return of the trouble since. I know of others who have used Doan's Kidney Pills with equally satisfactory results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's and take no other.

Popular Couple Wedded.

A pretty wedding occurred in this city at noon yesterday, the contracting parties being Thomas Robert Zimmerman and Miss Della Demartini, the youngest daughter of Mr. and Mrs. Paulo Demartini. The ceremony was performed by Rev. Father Sullivan in the presence of many friends and relatives, in the cottage on Arguello street where the bride and groom will make their future home. The couple were attended by Miss Norma Scalmanini of San Francisco and Mr. Frank Zimmermann. Immediately after the ceremony a breakfast was served amid elaborate decorations of pink and white. Mr and Mrs. Zimmermann left on an afternoon train for Sacramento for their wedding trip. They are popular young people and have been the recipients of many congratulations and good wishes for a happy and successful future.

Chas. Roedel of San Mateo has resigned his position in the bank there and goes to San Francisco to engage in the lumber business.

Explosion at Meat Factory

A terrible explosion occurred at the Western Meat Company's plant at South San Francisco late Thursday night. The steam pipes in the lard room exploded and tore out the side of four stories of the building. The night watchman, Edward Devoulvy, was killed. The Company sustaineed a heavy loss.

Asks for Letters of Administration

Public Administrator H. G. Plymire, through his attorneys, Harry E. Styles and James T. O'Keefe, has applied for letters of administration upon the following estates.

Frank Souvier who died on December 25th, 1907 in this county. The estate consists of personal property, cash amounting y to $100.

Edmund Walsh, who died in this county on April 30th, 1904. The estate consists of cash amounting to $60.

A petition was filed in the superior court of Santa Clara County last Saturday by Mrs. Ellen E. Flannelly asking that letters of administration be issued to her on the estate of her late husband, J. E. Flannelly. The estate consists of property in San Francisco and in Palo Alto. Charles & Schneider are attorneys for the estate.

Passing of a Pioneer

George M. Josselyn, a pioneer ship chandler, died on Tuesday night at his son's residence, Woodside. Josselyn, who wsa widely known among shipping men at this port, arrived in SSan Francisco on the last day of the year 1849, and had been in business in that city since. He is survived by one son, Charles.

The age at which any nut trees come into bearing depends on the care given to the trees. Some authorities state that fifteen or twenty years are necessary to bring them into full bearing from the time the nut is planted. This is a mistake, as trees that have been well cared for should bear a bushel of nuts in ten years, and the quantity will increase rapidly each year after that time.

Some persons may enjoy raising these trees from seed. To be sure, it is rather a slow process, but it is interesting work. When planting the nuts, if they have thin shells be perfectly sure that they have not dried out at all. The best plan is to get them as soon as they ripen and plant them at once. When this is not possible, keep them in moist sand or in sawdust until they can be started. Butternuts, walnuts, hickory nuts and filberts, being hard shelled, will keep in growing condition much longer, but should be planted in the fall, as they germinate better when allowed to freeze, as that cracks the shell.

The fall planting is nature's own plan, and the nearer we follow her ways the better results we may expect. Another thing, do not plant the nuts deep. Nature drops them on the surface and gives them a thick cover-

George C. Ross, on behalf of the Home Protective Association, presented and read ordinance 218 regulating and licensing the operation of smelters and providing supervision thereof for the purpose of preventing injuries from oxides of sulphur, flue dust and other noxious substancees thercat. Mr Ross urged the adoption of the ordinance saying that two Stanford Professors, Robert Swain and Professor Pierce had been sent East by the Association to secure data concerning the injurious effects the fumes of a smelter would have on vegitation.

Professor Swain was called by attorney Sam Knight and closely questioned by him. He said that the fumes from copper smelters would directly injure vegetation within a radius of many miles of the plant Under direction of the Home Protective Association he had made an investigation of the prominent smelters of the United States. He said that he considered the license and restriction and the limit upon the percentage of deleterious matter in the fumes, as exceedingly liberal to a smelter company, the limit in Germany and other European countries being less. As to the effect upon animal and vegetable life he stated that the proximity of an institution of this character was extremely dangerous to any living thing. In the vicinity of the Anaconda smelter, the inhabitants are compelled to drive their stock away to distant valleys when the smoke comes in their direction, and what was once a fertile stock country has become parched and desolate and unfit for grazing. The stories of Martinez. Salt Lake and Ducktown, Georgia, all were similar and for a distance of 25 miles vegetation in the shape of grass and shrubs was destroyed.

Geo. K. Peirce, Professor of Botany at Stanford, also visited the large smelters of the United States. He said that he had visited the Ducktown smelter, in Georgia and found evidences of damage to vegetation for 53 mile from the smelter. The forests were injured for a long distance and a decided effect was noticed in stock and truck gardens. The injuries to Pine trees was decidedly pronounced. He explained that in the Anaconda Valley stock raising had almost ceased on account of the smelter there. He was certain that if a smelter was established at San Bruno Point the Peninsula would be effected and the vegetation for many miles.

Joseph D. Grant, who had made a study of the question of smelter was positive the peninsula would be injured by the establishment of a plant at San Bruno Point.

John E Bennett made an eloquent and forcible speech in favor of the passage of the ordinance saying the people would not come down the Peninsula to erect fine homes and lay out beautiful gardens of such a nuisance was to be tolerated. He claimed the peninsula would become a desert if the smelter was established. It was necessary he said for the passage of the ordinance for the protection of the people.

Geo. C. Ross said Superintendent McLaren of the Golden Gate Park had told him the park would be in danger of destruction if the smelter was operated at San Bruno Point.

Eikerenkotter said the proprietors of the proposed smelter ought to be heard, they having spent a large sum of money to secure a site. He did not know that a smelter was to be erected, however, he thought those interested should have a hearing before the passage of the ordinance. Debenedetti concurred in what Eikerenkotter had said.

Samuel Knight said no one could find any fault with the regulation proposed by the ordinance. Chairman Coleman favored the passage of the ordinance. He could not see why the smelter people could not continue Bain favored the passage of the ordinance. He said the people had always been fighting the smelter and now the smelter could fight the people. He moved that the ordinance be adopted and the motion was seconded by Blackburn. On a vote being polled MacBain, Blackburn and Coleman voted aye and Eikerenkotter and Debenedetti voted no. Before the vote was announced Eikerenkotter changed his vote from no to ayee and give notice of the reconsideration of the vote at the next meeting.

Attorney C. N. Kirkbride presented a petition signed by H. P. Bowie and others of Burlingame asking for the incorporation of that town. W. H. Honskom, C. E. Dunshee and Dr. Chapman were sworn and give testimony to the effect that the 50 signers to the petition were tax pay- their work under the regulations. Mac ers and resided in the town of Burlingame. Coleman announced that no further proceedings could be had owing to the absence of the District Attorney. On motion of Blackburn seconded by Eikerenkotter further action on petition was continued to the next meeting

On motion of Debneedetti seconded by Blackburn the map of Brophy Beach at Halfmoon Bay was accepted. The map of Kelly avenue tract Halfmoon Bay was accepted on motion of Blackburn seconded by Mac Bain.

A request was received from Lieut-Colonel J. W. Jones, United States army for a copy of the latest map of the county. The clerk was directed to forward one as requested.

Several petitions were received from persons having care of orphans who have been receiving aid from the county, asking for a renewal of same. They were all granted.

B. J. Duffy and Frank E. Bacon were granted permission to lay sewer pipe from the county road to the Hayward subdivision.

MacBain was given further time to report on the Pope street Bridge over the San Francisquito creek.

The affidavit of D E.. O'Keefe showing that the ordinance granting W. J. Martin a franchise to operate and maintain wire and poles for the transmission of electricity in the First Township was duly published according to law.

County Surveyor James Neuman was instructed to survey a certain highway in the Brighton Beach tract in San Pedro Valley.

A petition was read from the residents of Vista Grande asking for the formation of a new school district from the Jefferson School district. H. W. Brown opposed the petition saying that there would be practically nothing left of the latter district Further hearing went over until the next meeting of the board.

Church Holds Annual Business Meeting

The annual business meeting of the Congregational Church was held in the Church parlors Thursday night. At seven o'clock about 75 of the members sat down to a beautifully prepared dinner and proceeded to satisfy the inner man for an hour and a half. At 8:30 the regular business was taken up and reports of the various church activities were read. The report showed a membership of 118. Fourteen members have been added during the year and two have died. The treasurers report showed that over $1500 has been paid out for the pastors salary and running expenses. This amount was all raised during the year and the start of 1908 was made without one cent of debt. Besides this amount over $200 has been given for Missions which is a very goodly sum for a church of this size. The report of the Sunday school superintendent showed that $220 had been collected during the year. There was an average attendance of 96 and this number would have been materailly increased were it not for the very small attendance on two rainy Sundays as there is generally about 116 present. The Christian Endeavor, Ladies' Aid Socitey and Missionary Society are all in a flourishing condition and each has a surplus in the treasury.

It was decidedbecause of the growth of the work here that the pastor should devote his entire time to the Redwood City field and that a student should be engaged to take charge of the Woodside work. The election of officers was taken up. Prof. S. P. McCrea was elected Deacon, Miss Clara M. Shelley, Clerk; Robert Brown, C. E. Doxsee, F. H. Thorpe and H. E. Holmquist, trustees; and L. P. Behrens Sunday School Superintendent.

From the meeting it vean be seen that the church has just passed through a vrey successful year and that the work and all of the activities have fared well under the ministry of Mr. Kirtland.

Sacred Heart Opens for Spring Semester

ANSWERS DEATH'S SUMMONS

Mrs. M. E. Selzer Suffering From a Severe Cold and Not Pneumonia

A choic asstrtment of garden roses suitable for immediate planting, at The Las Palmas Greenhouses Hamilton Avenue and Hale street, Palo Alto. Phone, Main 176. 1--11-4

Richard Sprage is having constructed on his place at Menlo Heights a fine gate lodge and a coach house. Mr. Agard, the superintendent, is using every endeavor to have the place make a fine appearance next summer.

W. J. Murray is removing the fence from his property opposite the depot preparatory to erecting a business block.

Dan Carleton, oldest son of A. J. Carleton, is one of the foremen on the new Palace Hotel in San Francisco.

The young ladies of the Sacred Heart Convent rsumed their studies Monday for the Spring semester.

J. L. Megladdery, formerly of this place, was given charge of the circulation of the "Town Crier" San Jose.

Frank Liddy, a former Menlo boy, visited mhis friends here during the week. He is now a conductor on a road running out of Kansas City.

Charles Kuck is spending the week at the Menlo Park Hotel. He is a prominent contractor of San Luis Obispo County having erected the largest buildings in that county. He had been confined in a hospital in San Francisco since last July with a severe illness. He is recovering and will soon be able to attend to his business. Mr. Kuck, who is a nephew of Martin Kuck, spent his boyhood here.

District Attorney Bullock is improving rapidly and will soon be himself again.

The street just macadamized throug town by supervisor MacBain is a credit and it is to be regretted that the funds will not permit of such further permanent improvements.

Thomas F. Gavin, formerly a mixologist for F. P. Roach, has been appointed a deputy in Coroner Leland's office in San Francisco. He was a strong advocate of the doctor's during the last campaign.

Miss Amy Bassett is confined to her home with a severe illness.

Wong Sing, a cook at the Menlo Park Hotel, was found dead in his bed Wednesday morning. Coroner Plymire held an inquest and the verdict of the jury was that Sing had died from a hemorhage. The body was shipped to San Francisco that afternoon. Sing had been employed at the hotel for two months and was a faithful servant. He had been in the country for thirty years and was known to possess c onsiderable wealth. The public administrator will most likely probate his estate.

The directors of the Nordheimer Company held an important meeting at the residence of H. B. Morey Tuesday evening. A clean up for 12 days amounted to $2100. This showing was highly appreciated by the company which is chiefly composed of local business men.

H. B. Morey and Sons have secured a contract to put down 6000 feet of curbing on the walks and driveways on the grounds of J. B. Coryell.

The many friends of Mrs. M. E. Selzer, proprietor of the Menlo Pharmacy, are glad to hear that she is improving. She is at the Guild Hospital at Palo Alto and getting along nicely. It was thought at first that she was threatened with pneumonia but by a thorough diagnosis of her case it was learned that she was suffernig only from a severe cold.

Alfred Parker, a brother of Mrs. Henry Midgley of this place, passed away at his home in Auburn Thursday mornnig of last week. He had been suffering from pulmonary troubles for some months and left here for Auburn believing the climate of that place would help him. His wife sent a telegram to Mrs. Midgley on Wednesday morning apprising her of the approaching death of her husband, but the telegram was not received until late Thursday evening. A telegram announcing his death was sent Thursday morning but did not reach here until Friday night This demonstrates how poor our telegraph service is. Mrs. Midgley reached Auburn just in time to attend the funeral which took place Saturday morning. Deceased was a native of England aged 36 years. He leaves to mourn him a wife and daughter, two sisters and a brother residing in England and a sister, Mrs. Midgley, living here. He was engaged in the wood and coal business here for some time and was well liked by all who knew him.

Resolution of Sympathy

The Officers and Members of Metamora Tribe No. 24, Improved Order of Redmen:

Your committee on resolutions of condolence upon the death of the wife of our esteemed brother W. C. Havey, begs to submit the following: Whereas, The Great Spirit of the Universe has in his infinite wisdom called to final rest the beloved wife of Brother William C. Havey, and the death angel has carried the spirit to the heavenly home, it is meet that the brothers of Metamora Tribe No 24, Improved order of Redmen, should extend words of condolence and sympathy to Brother Havey and family in their hour of sadness and sorrow; that the fraternal hand of Redmanship be extended to those who mourn the loss of one who has gone to the eternal home from which none return, therefore be it

Resolved, That we, in this, his hour of bereavement, stand by his side to aid and comfort him in all ways commensurate with the duties incumbent on brother to brother and man to man.

Resolved, That while a chair is made vacant by the loss of one so dear, friends are near to offer aid and comfort; that the hand of Redmanship is ever ready to help the weak and lessen the sorrows of the bereaved.

Resolved, That a copy of these resolutions be sent to the family of Brother Havey, that a copy be spread upon the minutes of the tribe and a copy be sent to the Redwood City newspapers Yours in F. F. and C. G. J. Liguori, C. H. Offermann.

Electric Car Kills One Cuts Leg Off of Another

SAN MATEO, Jan. 8.—While attempting to board an electric car of the United Railroads Company near Burlingame last night, Ed Schultz, a well-known resident of Half Moon Bay, and Peter Nandino, both employees of the Millbrae Dairy, were run down by the car and Schultz was immediately killed. Nandino escaped with the loss of a leg.

Seeing a car approach, bound for San Francisco, the men stepped near the track and signaled for it to stop. The car wasgoing at such a rate of speed as to make it impossible for the motorman to stop it at the street intersection where the men were standing. The car ran for some yards up the track and the men, thinking they had lost it, hturned about to watch for another one, whicl they expected to come in a few minutes

The motorman of the car, however, had stopped it on seeing the prospective passengers and started to back up to where they were standing on the track. The men saw the car coming, but thought it was on the farther track, southbound, and did not move out of the way for it to pass.

The car struck both of the men, killing Schultz instantly and running over Nandano's left leg. Nandino and Schultz were placed upon a southbound car and taken to San Mateo, where Schultz was taken to the morgue. Nandino was taken to the new Emergency Hospital, where Dr. Morrison, this morning, amputated his left leg. The hospital has just been finished and was not yet open for patients, the formal opening, however, is planned for the nera future.

Schultz was for many years a resident of Half Moon Bay and was very popular in that section of the county

At the inquest, held today, the Coroner's Jury exonerated the crew of the car from any blame for the accident.

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF SAN MATEO.
In the Matter of the Estate of WILLIAM J. ADAMS, Deceased. } Order to show cause on sale of real estate.
Cassandra H. Adams and Charles H. Adams as executors of the will and estate of William J. Adams, deceased, having presented herein their petition duly verified, praying for an order for the sale of a certain portion of the real estate of said deceased, which said portion is the parcel of land hereinafter particularly described, and it appearing from such petition that it is necessary and that it will be for the advantage, benefit and best interests of said estate and those interested therein to sell said parcel of land for the purposes therein mentioned, and said petition being now filed herein, it is therefor ordered by the Judge of said Court that all persons interested in the estate of said deceased appear before the said Superior Court on Thursday the 6th day of February 1908, at ten o'clock in the forenoon of said day in the Courtroom of said Court at the Odd Fellows Building in Redwood City in said County of San Mateo to show cause why an order should not be granted to said executors for the sale of said parcel of land. The following is a description of the said parcel of land, the sale of which is prayed for by said petitioners.
That certain piece or parcel of land situate lying and being in the County of San Mateo, State of California, near the Menlo Park Railroad Station, bounded and particularly described as follows to-wit:
Commencing at the corner formed by the intersection of the Northern line of Middle (sometimes called Middlefield) Road with the Easterly line of Marsh Road, and running thence along said Easterly line of said Marsh Road North Twenty-three degrees fifty-two minutes (23° 52') east, twenty-seven (27) chains ninety-six (96) links: thence South Fifty-eight and one-quarter degrees (58¼°) east twenty-one (21) chains and sixty-nine (69) links; thence South thirty-one and three-quarters (31¾°) degrees west twenty-seven (27) chains and sixty-eight (68) links to the North line of said Middle Road; thence along said last named line North fifty-eight and one-quarter (58¼°) degrees west seventeen (17) chains and ninety (90) links to the point of commencement, containing fifty-four and seventy-seven hundredths (54 77-100) acres of land, and being a portion of the Rancho de las Pulgas.
Let a copy of this order be published as required by law in the Times-Gazette, a newspaper of general circulation published in San Mateo County.
Dated December 31st, 1907.

Wellington Gregg, Jr., plaintiff, vs. Wm. R. Berry, Edward M. Brewer, Edward M. Brewer as trustee, Eliza Brewer, Frank McCoppin Brewer, as executor of the last will and testament of W. P. A. Brewer, deceased, and all persons unknown who have or claim any interest in, or lien upon, the property described in the complaint herein, defendants.
Action brought in the Superior Court of the State of California, in and for the County of San Mateo, and the complaint filed in the office of the Clerk of the said County of San Mateo.
IRA S. LILLICK,
Attorney for Plaintiff
SUMMONS.
The people of the State of California send greeting to Wm. R. Berry, Edward M. Brewer, Edward M. Brewer as trustee, Eliza Brewer, Frank McCoppin Brewer, as executor of the last will and testament of W. P. A. Brewer, deceased, and to all persons unknow who have or claim any interest in or lien upon the property herein described, defendants.
You are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of San Mateo, within ten days after the service on you of this summons—if served within this county; or within thirty days if served elsewhere.
The said action is brought, and the object thereof is to obtain a decree of partition of the real property hereinafter described according to the respective rights of the parties aforesaid and the parties interested therein, and for a sale of said property, or a part thereof, if it appear that a partition cannot be made without great prejudice to the owners thereof and to determine all adverse claims of the defendants, and each of them, to the said real property which is situate, lying and being in the County of San Mateo, State of California, and bounded and particularly described as follows, to-wit:
Beginning at a point on the northwesterly side of Santa Ines avenue, said point being distant the following courses and distances from an iron pipe monument set in the center of said Santa Ines avenue where the division line between the properties of the El Cerrito Land Company and the Bowie Estate Company intersects the same: South fifty (50) degrees west one hundred (100) feet, south forty-eight (48) degrees fifty (50) minutes west two hundred and fifty (250) feet, south forty-eight (48) degrees thirty (30) minutes west one hundred and thirty (130) feet south fifty-one (51) degrees west one hundred and twenty (120) feet, north thirty-two (32) degrees west thirty-five and two-tenths (35.2) feet to said point of beginning; and running thence from said point of beginning north thirty-two (32) degrees west three hundred and seventy-five (375) feet to a stake in the division line between lands of the Bowie estate and those of Clark; thence on and along said division line north fifty-nine (59) degrees thirty (30) minutes east two hundred (200) feet; thence south thirty-two (32) degrees east three hundred and forty-one and four-tenths (341.4) feet to a point in the aforesaid northwesterly side of Santa Ines avenue; thence on and along said side of Santa Ines avenue south forty-eight (48) degrees thirty (30) minutes west eighty-seven and three-tenths (87.3) feet, south fifty-one (51) degrees west one hundred and fifteen (115) feet to the point of beginning, containing one and sixty-five one-hundredths (1.65) acres of land, and forming a portion of the Bowie estate as designated and delineated on a certain map entitled "Map Number One (1) of Bowie Estate," recorded in the office of the County Recorder of said County of San Mateo, on the sixteenth (16th) day of September, one thousand eight hundred forty-seven (1897) in map book two (2) at page ninety-one (91) thereof.
And you are hereby notified that unless you appear and answer as above required said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.
Given under my hand and the seal of the Superior Court of the State of California, in and for the County of San Mateo, this 22nd day of Oct., A. D. 1907.

Ordinance No. 218.

An Ordinance Regulating and Licensing the Operation of Smelters and Providing for Supervision Thereof for the Purpose of Preventing Injury from Oxides of Sulphur, Arsenic, Flue Dust or Other Noxious Substances Generated Thereat.

PREAMBLE.

Whereas, it appears to the Board of Supervisors of the county of San Mateo, state of California, that smelters which discharge air, smoke, gases and fumes containing oxides of sulphur, arsenic and other noxious substances have frequently been injurious to the public comfort, health, safety and welfare and have been the cause of many suits for damages and for other relief and have been declared by the courts to be nuisances and decrees against the owners thereof for damages and enjoining further like operation of such smelters have been given and made; and
Whereas, it further appears to, and it is the judgment of, this board that the operation in this county of smelters should be regulated, licensed and supervised for the purpose of protecting and preserving the public comfort, health, safety and welfare, and to provide against any smelter operated in this county becoming or continuing to be a public nuisance;
Now Therefore, to such ends and after investigation and consideration and as a local police and sanitary regulation and ordinance,
THE BOABD OF SUPERVISORS OF THE COUNTY OF SAN MATEO, STATE OF CALIFORNIA, DO ORDAIN AS FOLLOWS:
Section 1. Words used in this ordinance in the present tense include the future as well as the present; words ugsed in the masculine gender include the feminine and neuter; the singular number includes the plural and the plural the singular; the word "person" includes a corporation, association and firm, as well as a natural person; the word "day" shall be construed to be period of time between any midnight and the midnight following; and the word "smelter" includes, and shall be construed to cover, any and all buildings, works and plants for, or involved in, the treatment, roasting or reduction of metalliferous ore or matte containing lead, copper, antimony, zinc, arsenic, or sulphur, or any compound thereof, and having the capacity to treat, roast or reduce fifty (50) tons or more of such ore or matte per day.
Section 2. It shall be unlawful for any person to operate in the county of San Mateo any smelter unless he shall have procured and paid for the license hereinafter mentioned and required.
Section 3. It shall be unlawful for any person to operate in the county of San Mateo any smelter unless he shall have first provided, and thereafter shall continuously maintain, at such smelter easy and efficient access thereto and means whereby samples of any noxious air, smoke, gases, fumes, flue dust or waste substance generated thereat and discharged therefrom may be readily taken for analysis.
Section 4. It shall be unlawful for any person to cause, allow or permit to escape or be discharged from any chimney or flue directly or indirectly connected with the furnaces, converters or other parts of any smelter into the free atmosphere any air, smoke, gases or fumes which said air, smoke, gases or fumes contain oxides of sulphur estimated as sulphur trioxide or sulphuric anhydride amounting to more than two (2) grains per cubic foot of said air, smoke, gases or fumes, if such smelter be of the capacity of not more than one hundred (100) tons of ore per day, or more than one and one-half (1½) grains per cubic foot of such air, smoke, gases or fumes if such smelter exceeds in capacity one hundred (100) tons of ore per day; and in calculating the proportions for the purpose of this ordinance, such air, smoke, gases or fumes shall be calculated at a temperature of sixty (60) degrees Fahrenheit thermometer, and at a barometric pressure of thirty (30) inches.
Section 5. It shall be unlawful for any person to cause, allow or permit to escape or be discharged from any chimney or flue directly or indirectly connected with the furnaces or converters or other parts of any smelter into the free atmosphere any air, smoke, gases or fumes which contain arsenic flue dust or any noxious substance in such quantity that the same is dangerous or injurious to animal or vegetable life.
Section 6. It shall be unlawful for any person to cause, allow or permit to be discharged from any smelter into the waters of the bay of San Francisco, within the county of San Mateo, or into any branch or arm thereof or tributary thereto within said county, any sulphuric acid, nitric acid, arsenic, lead, copper, zinc, antimony, or the compound of any two or more of them.
Section 7. It shall be the duty of any person desiring to operate a smelter to procure from the ex-officio license collector of this county, before commencing to operate the same, a license authorizing him to operate the same, and shall pay therefor to the said license collector the license tax hereinafter set forth for a smelter of the capacity of the one he desires to operate.
Section 8. The classification and the license tax for the operation of a smelter pursuant to the provisions of this ordinance shall be as follows:
Class 1. A smelter having a capacity of not exceeding one hundred (100) tons of ore per day, the sum of fifteen (15) dollars per month;
Class 2. A smelter having a capacity of more than one hundred (100) tons, and not exceeding five hundred (500) tons of ore per day, the sum of twenty-five (25) dollars per month.
Class 3. A smelter having a capacity of more than five hundred (500) tons and not exceeding one thousand (1000) tons of ore per day, the sum of fifty (50) dollars per month;
Class 4. A smelter having a capacity of more than one thousand (1000) tons and not exceeding two thousand (2000) tons of ore per day, the sum of one hundred (100) dollars per month;
Class 5. A smelter having a capacity of more than two thousand (2000) tons of ore per day, the sum of one hundred and fifty (150) dollars per month.
Said license tax shall be payable quarterly, semi-annually, or annually, in advance, at the option of the licensee; but no license shall be issued for a longer period than one year from the date thereof, PROVIDED, that the same may be renewed at the expiration thereof on proper payment therefor.
Section 9. It shall be the duty of the health officer of said county, or such other person as the Board of Supervisors may designate therefor, at such time or times as the said board, or the chairman thereof, may direct, or such health officer or person shall deem it necessary or proper, to visit any such smelter and the premises on which it is situated, and examine the same, and exercise the rights and perform the acts provided for in Section 10 hereof. He shall, when he deems it necessary or proper, or when so directed thereto by said board, or its chairman, take samples of the air, smoke, gases and fumes discharged or issuing from such smelter into the free atmosphere and shall have the same analyzed to ascertain whether they exceed in content the maximum of oxides of sulphur permitted to be discharged, as hereinbefore provided, and whether such air, smoke, gases and fumes contain dangerous or injurious quantities of arsenic, flue dust or other noxious substances, and as nearly as practicable the amount thereof per cubic foot, and shall report to the Board of Supervisors the result of his examination and analysis; and said board may thereupon, if it deems it necessary or proper, direct the District Attorney of said county to file a proper charge and complaint against, and prosecute, any person who, in its judgment, has wilfully violated this ordinance; but prosecutions for violation of any provision of this ordinance may be instituted, had and maintained without any order of said board therefor. And nothing herein contained shall justify or permit the maintenance of a nuisance of any character or deprive any one of his action at law or in equity for the abatement thereof, or for damages arising therefrom, or for any proper relief or judgment.
Section 10. The health officer or other person mentioned in Section 9 hereof, shall, for the purposes of this ordinance, have free access to, and may at any time, by day or night, and without giving previous notice,—
(a) Enter and inspect any smelter for the operation of which a license has been granted as aforesaid;
(b) Observe and examine any process causing the evolution of any noxious or offensive air, smoke, gases, fumes, arsenic, flue dust, or waste substance and any apparatus for preventing the discharge thereof into the atmosphere, or for rendering any smoke, gases, fumes, arsenic, flue dust or noxious substance generated thereat harmless or inoffensive when discharged;
(c) Ascertain the quantity and composition of the air, smoke, gases, fumes, arsenic, flue dust and noxious substances discharged from any such smelter;
(d) Enter and inspect any place where liquid, acid, or other waste substance is discharged or deposited;
(e) Collect and remove for analysis samples of air, smoke, gases, fumes, fluids, and solid matter generated or made at such smelter; and
(f) Make such investigation and apply such tests as he may deem necessary or proper, or said board may direct, to carry out the purposes of this ordinance:—
Provided, however, that no person shall be obilged to disclose or permit the examination of any secret process or apparatus used in operating such smelter.
Section 11. It shall be unlawful for any person to resist, hinder, delay, annoy or interfere with the health officer, or other person mentioned in Sections 9 and 10 hereof, while in the performance of any duty or act provided for or authorized by this ordinance.
Section 12. Any person who shall violate any provision of this ordinance shall be guilty of a misdemeanor, and shall, upon conviction thereof be punished by a fine not exceeding five hundred dollars, or by imprisonment in the county jail of the county of San Mateo not exceeding six months, or by both.
Section 13. Each and every day, or fractional part thereof, wherein any smelter is operated in violation of any provision of this ordinance shall constitute a separate offense.
Section 14. This ordinance shall take effect and be in force from and after fifteen (15) days from its passage.
Passed and adopted by the Board of Supervisors of the county of San Mateo as an ordinance of said county at a session and regular meeting of said board held this 6th day of January, 1908, by the following vote:
Ayes, and in favor of the passage of said ordinance, Supervisors, J. Eikerenkotter, John MacBain, D. E. Blackburn, J. H. Coleman.
Noes and against the passage of said ordinance, Supervisor, J. Debenedetti.
